Your petitioner, BioLase Technology, Inc., hereby disclaims the terminal part of claims 53 to 68 of any United States patent granted on the above-identified application which would extend beyond the expiration date of the full statutory term as presently shortened by any terminal disclaimer of U.S. Patent No. 6,350,123 and hereby agrees that said claims of any United States patent so granted on the above-identified application shall be enforceable only for and during such period that they are commonly owned with U.S. Patent No. 6,350,123, this agreement to run with any patent granted on the above-identified application and to be binding upon the grantee, its successors or assigns.
